# The Isabel Hampton Robb Memorial Fund

Established in 1910 by the Members of the

American Society of Superintendents of Training Schools for Nurses  
(Now the National League for Nursing Education)

and the

American Nurses Association

To provide Fellowships and Scholarships for Graduate Nurses desiring opportunity for further training,  
study and research

THE ISABEL HAMPTON ROBB MEMORIAL SCHOLARSHIP FUND offers annually a number of scholarships to graduate nurses of approved qualifications who desire to prepare themselves for further service in some branch of nursing or health work, or who seek opportunities for study and investigation of some special problem in nursing.

For the year 1915-1916 three scholarships of the value of \$200 each are available for work which may, if satisfactory candidates present themselves, be carried on in the following places :

- (a) Department of Nursing and Health, Teachers College,  
Columbia University, N. Y.
- (b) School for Social Workers, and  
Instructive Visiting Nurse Association,  
Boston, Mass.
- (c) School of Civics, Chicago, Ill.
- (d) Henry Phipps Institute, with the  
Visiting Nurse Society, and the  
Philadelphia Training School for Social Work,  
Philadelphia, Pa.

In Teachers College the candidate may enter either the division preparing for training school work or that leading to public health nursing, and in the latter she may pursue the special study of some one branch—such as School Nursing, Infant Welfare Work, or

Industrial Nursing, or others to be selected. The Department co-operates for practical work with the Henry Street Nurses' Settlement and with the City Health Department, Division of Child Hygiene.

In the School for Social Workers, Boston, Mass., affiliated with Simmons College, and with the Instructive Visiting Nurse Association, the candidate may enter for the one-year course arranged for those desiring to prepare for Visiting or Public Health Nursing.

In the School of Civics, Chicago, Ill., the candidate may enter as a special student, selecting such courses as will be likely to prove most valuable for Visiting or Public School nurses who have social as well as purely nursing matters to deal with.

In the Henry Phipps Institute, affiliated with the Visiting Nurse Society and the Philadelphia Training School for Social Work, the candidate may enter for a course of eight months in preparation for Public Health Nursing.

In all instances candidates will be expected to meet the educational requirements of the schools or colleges mentioned, as well as the requirements of this Committee for satisfactory records of work in an approved training school for nurses. Those to whom scholarships may be awarded for work either in Chicago or Boston will be under the general advice of the Superintendent of the Visiting Nurses Association in the respective cities, who is in each instance familiar with the work of the schools mentioned.

In awarding, the committee considers past achievements, reports of teachers and other responsible persons under whom candidates have worked. Such reports should deal with character and personal qualifications, as well as scholastic and technical attainments. **Students** ~~They~~ may ~~also~~ be required to submit a paper dealing either with some aspect of the work which they propose to undertake or with some special subject selected by the Committee.

Scholarship students may further be required, during their year of work, to make a serious study of some special phase of nursing work which would be a contribution to the literature of the profession.

Applications for this year may be made up to May 15th, and forms may be secured from the Chairman of the Scholarship Committee. Awards are made as soon as possible after the last date set for receiving applications—a statement being sent to each applicant.

Payments to scholars are made in two equal semi-annual instalments, on September 1st and on January 1st.

For further information and for forms of application, please refer to the Chairman of the Committee on Scholarships: MISS ANNA MAXWELL, Presbyterian Hospital, 70th Street and Madison Avenue, New York City.

#### GENERAL COMMITTEE

M. ADELAIDE NUTTING, *Chairman*

Director of the Department of Nursing and Health  
Teachers College, Columbia University, New York City
